

The ABC's of Organ Playing

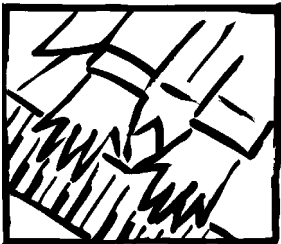

These classes are designed for the church organist who may not have had the benefit of formal organ training or those who need to “brush up” on the basics. This class will guide participants in the use of multiple manuals, pedals, and registration guidelines.

We will explore these topics in an ABC format:

♪ Appreciation

♪ Basic Knowledge

♪ Creativity

♪ Appreciation

This section is a review of the development of the organ, from ancient times to today's digital and pipe combinations. The various types of pipe sounds are explained, as well as footage markings on stops.

♪ Basic Knowledge

This section defines and demonstrates the various parts of the organ. General organ terminology is included.

♪ Creativity

Registration ideas for Hymns, Accompaniment and Introductions will be covered in this section. It will also cover the basics of using MIDI in organ registrations.
